

See The Difference

DS-2090AT-TC (90mm Altazimuth Refractor)

REFRACTING TELESCOPE

The DS-2090AT-TC is a fully GoTo telescope. Its onboard computer knows the night sky. After a short alignment procedure, your telescope will be ready to take you on a tour of the universe. You will see more objects in one night than Galileo saw in a lifetime. See planets like Saturn and Jupiter, star clusters, nebulae, galaxies and more.

- **Large 90mm diameter refractive lens**
Captures more light for brighter images and greater detail
- **5-piece premium 1.25" eyepiece set with carry case**
For superior long eye relief and an expansive wide visual field
- **Includes Red-dot projection viewfinder**
For easy acquisition of guide stars while star-hopping between celestial targets
- **AutoStar Suite™ Astronomer Edition**
Amazing planetarium software and Instructional Video will teach you the night sky and how to use your telescope
- **Assembles in minutes**
Includes everything you need to explore your universe

A first look at the rings of Saturn or the craters of the Moon can inspire a lifetime of exploration. Go to any star party anywhere in the world and you'll see more Meade telescopes than any other.

BONUS!
5-Piece Eyepiece Set & Carrycase

AutoStar Suite™ Astronomer Edition Software on DVD

AutoStar Suite Astronomer Edition software will help you learn the night sky. It displays more than 10,000 celestial objects including planets, stars, galaxies and nebulas. You can print out star charts and even plan your observing sessions. It operates on any Windows® based PC.

Also includes an Instructional DVD. You'll be up and running in no time. The universe is waiting.

MEADE DS-2090AT-TC

REFRACTING TELESCOPE

DS-2090AT-TC

5-Piece eyepiece set with carrying-case

Red Dot Viewfinder and #497 AutoStar® Computer Controller

SPECIFICATIONS

Model / Part#	DS-2090AT-TC / TBD
Optical Design	Refractor
Optical Diameter	90mm (3.5")
Focal Length; f/ratio	800mm; f/8.8
Mounting Type	Altazimuth, DS-2000 mount
Viewfinder	Red Dot
Tripod	Aluminum; full-length; adjustable with accessory tray
Eyepieces (1.25")	MA6mm, MA12mm, MA17mm, MA20mm, MA25mm
Software	AutoStar Suite™, PC-compatible DVD
UPC	TBD

Meade® Premium Optics

Serious astronomers for years have flocked to Meade telescopes for their premium quality optical systems and patented technology. Consumers know that "Meade Optics Inside" means that what they see through our telescopes will be views that are detailed, crisp and full of contrast. Look through a Meade this evening and see what you've been missing.

More Power Than You'll Ever Need.

Any astronomer will tell you that light gathering—not power—is what matters. A small, crisp image is better than a large hazy one. Meade's 1.25" diameter eyepieces provide wider fields of view, allowing you to see more of the sky at greater magnifications. Additional eyepieces and other accessories for this telescope are available at www.meade.com/accessories

#497 AutoStar® Computer Controller

The AutoStar® computer controller helps you quickly find and GoTo over 30,000 objects in the night sky. View planets, stars, galaxies, nebulae, comets and more—all at the push of a button. Don't know what you want to view this evening? Then go to the Tonight's Best™ tour in your AutoStar. It automatically selects the best objects in the sky for that particular time and location.

The AutoStar controller can be updated over the internet. Just log on to meade.com/autostarupdate to download software upgrades, guided tours, and timely objects like comets—FREE. Keep your AutoStar up-to-date and your telescope will grow with you for years to come.
